EXPLANATORY NOTES

Introduction

This publication is issued each month as a supplement to the annual *Catalogue of Publications and Products, Australia* (1101.0), which lists current ABS publications and gives brief descriptions (abstracts) of their contents. In addition, a *Publications Advice* (1105.0) is issued each Tuesday and Friday listing publications released on the day of issue and expected releases on the following five days (national publications) or two days (State/Territory publications).

2. A brief description of the contents of new publications, changes to existing publications and other information of interest appears at the back of this publication.

Publication prices

3. Prices include postage both within Australia and overseas (economy air).

Mailing service

4. Clients who wish to receive publications on a regular basis may use the ABS Publications Subscription Service.

5. Clients who already use this service and who wish to change their requirements should quote their client identification number when contacting ABS. The number is shown at the top left hand corner of the address label used to despatch publications to clients.

6. Renewal notices are sent to all subscribers annually in respect of the subscription year commencing on 1 January. Payment for priced publications is required in advance and should accompany renewal notices returned to ABS.

Statistical information service

7. Each ABS office has an Information Consultancy service to assist clients by providing a first point of entry to the ABS. Information consultants will assist where possible or, where appropriate, refer the enquiry to a contact officer. The Information Consultancy area offers a limited free service providing information from published statistics both over the telephone and over the counter at ABS bookshops. The area also offers a fee for service information consultancy for detailed queries or provision of information from the ABS's vast unpublished data holdings. Unpublished statistics cover a variety of topics such as small area population information, commodity details for imports and exports, building, tourism and detailed information on Consumer Prices, to name just a few. The area offers various dissemination options from paper reports to floppy disks and magnetic tape.

8. In cases where a considerable volume of data has to be specially extracted or where a regular statistical service is required, a charge will be made.

ABS PUBLISHING NEWS

New Publications Released During July 1994

3313.0 *Trends In Mortality, 1971-92* (\$20.00)

This publication provides a compilation and analysis of the mortality experiences of the population by age, sex, and selected causes of death for Australia, the States and Territories during 1971-92, and for the Statistical Divisions and Subdivisions during 1991-92. The study utilises death statistics from vital registrations which are grouped into eleven leading causes of death currently prevalent in Australia. Mortality rates are calculated by sex, age and causes of death, which are summarised by several other measures of mortality. The study is unique in three respects: (i) it provides time series mortality rates between 1971 and 1992 for Australia, the States and Territories; (ii) the special variation in mortality is examined for Australia entirely; and (iii) the comparison of regional mortality with Australia or State mortality is based on the standardised measures and using the test of significance.
